A Follow Up Inspection Report of a Children's Residential Centre in Health Service Executive Dublin North East

**Inspection Report ID Number: 515
Fieldwork Date: 12th January 2012
Publication Date: 24th January 2012
Inspection Period: 14
Centre ID Number: 445**

Introduction

The Health Information and Quality Authority Social Services Inspectorate (HIQA/SSI) carried out a one day follow-up inspection (see inspection ID 469) of a children's residential centre in the HSE Dublin Mid Leinster Local Health Area under Section 69 (2) of the Child Care Act 1991. Kieran O'Connor, Inspector Manager returned to the centre on 12th January 2012 to conduct a follow up on the level of compliance with recommendations made. The inspector met with the Acting Deputy Centre Manager, two staff members and one young person.

Findings

The centre's purpose and function was to provide a residential based support service for young mothers and their babies. The centre was located in an attractive house in an estate.

Overall, the inspector found that the centre continued to be managed well. There were now two young mothers both aged 17 years. One young person was in the late stages of pregnancy and the other young person was minding her six month old baby in the centre. One young person told the inspector that the staff team were very approachable and helpful and she would discuss any worries she had with her Key worker. There were two child protection concerns since the last full inspection. These were dealt with appropriately. The young people were regularly visited by their social workers, had up-to-date care plans and regular reviews.

There were six recommendations made. Four of the recommendations were met, and two were met in part. While this report outlines some recommendations that needed to be completed, the inspector would like to commend the management and staff for the high quality of care provided to the young people and their children in this centre.

Action Plan for Inspection No. 469/515

Centre ID: 445
HSE Area: North East Area

Date Action Plan Dispatched: 3rd August 2011
Date Action Plan Updated: 12th January 2012
