Introduction

This report is a supporting document for the National Intellectual Disability Database Annual Report for 1996. It contains a specific analysis of the tables in the Annual Report for the Eastern health board region. Four new tables (Tables 4.1-4.4) provide details of people from the Eastern health board region who are recorded on other Regional Intellectual Disability Databases, and of people from other health board areas who are recorded on the Eastern health board Regional Intellectual Disability Database. The data presented are the validated data received from the health board in September 1996.
